Praise for *Revelación*

"Orca Soundings, with its contemporary takes on adolescent literature, can be counted on to entice the young reader to pick up a book and learn something about himself/herself... Adolescents can relate to the situations and the characters as well as the plot... These books are short, the conflict comes quickly, and the exciting, fast pace of *Revelación* makes it a wonderful read for a Spanish speaker. With the growth of the second language learner, books like these will entice young readers to read."

"Boasts a plot that's simple yet gripping, pacing that's tight and rapid-fire, and true-to-life characters that will resonate with readers both young and old... Truly a fantastic all-round read that is a sure bet for grabbing the interest of reluctant readers."

Praise for Leftovers

"Waldorf does an excellent job of not allowing Sarah to become a one-dimensional victim; instead, Sarah's response to her abuse forms only one facet of her character...Deals with a challenging topic with tasteful humour and interesting characters that will appeal to older teenage readers. Highly recommended."
