

STILL FRIENDS

Friendship Activity

A dog makes a new friend at the park—a statue who doesn't throw balls or give treats or pets. But he learns over time that she has her own strengths that make her a rock-solid friend.

What rock-solid friendships do you have in your life? These can be with friends, family members, pets or even a statue of your own!

Draw a picture of you and your rock-solid friend and then write why they mean so much to you.
