Second Story Press

Once upon a time,
in a hilly country far,
far away and lost in the
mists of time, there
lived a princess who
saved a prince...or
two...or three.

Wait a minute! Isn't that the wrong way round? In fairy tales it's the prince who saves the princess, isn't it?

Princes have swords to slay dragons.

Princes can scale tower walls.

Princes can break evil spells with one kiss!
